

Covid Update - Coronavirus restrictions remain in place

As recently announced, from 21 June there will be a 4-week pause at Step 3 of the roadmap for easing restrictions in England.

After 2 weeks, the UK government will review the data to see if the risks have reduced. It's expected that England will move to Step 4 on 19 July.

The Scottish and Welsh Governments are also reviewing their planning for the lifting of restrictions, which may also be delayed.

All areas are now speeding up the vaccine programme to get as many inoculated before 31st July

We will continue to follow the relevant government guidance on working safely and put in place measures to reduce the risk of COVID-19 transmission.

YOU have all been very good at following the Covid controls introduced by the Nurture Group

Let's Keep it Up ensuring we do not suffer now

Workplace Testing

The government have extended the workplace lateral flow testing scheme until 19th July

We have ordered sufficient to maintain management / office & workshop personnel testing levels

You should have received the test kits – if not please contact sara.hughes@nurturelandscapes who is coordinating their distribution.

Testing

Testing is simple and quick - you can do it at home and get the result in 30 minutes. Test yourself twice a week, or every 3 to 4 days.

Report your result

You should report your result immediately www.gov.uk/report-covid19-result. Please also report your result to your employer.

COVID-19 Workplace Collect test result reporting has changed

The way that you report your COVID-19 test results on GOV.UK has changed.

They claim they have made it simpler for people to report their test results against their workplace when testing at home.

To report test results, you will need to know our digit Unique Organisation Number (UON)

NURTURE UON is 50599943

Remember, you must report test results to help stop the spread of COVID-19.

If you're in an area where the new COVID-19 variant (known as Delta) is spreading

The new COVID-19 variant (known as Delta) spreads more easily than the other variants that were previously most common. To help stop the spread, you should:

- [Get both doses of the vaccine](#) when you are offered it, and encourage others to do so as well
- Participate in surge testing in your local area, whether you are vaccinated or not
- [Self-isolate](#) immediately if you have any [symptoms](#) of COVID-19 (a high temperature, a new, continuous cough or a loss or change to your sense of smell or taste) or if you've tested [positive](#) for COVID-19

In the areas listed below, you should also take particular caution when meeting anyone outside your household or support bubble. Wherever possible, you should try to:

- Meet outside rather than inside where possible
- Keep 2 metres apart from people that you do not live with (unless you have formed a support bubble with them), this includes friends and family you don't live with
- Minimise travel in and out of affected areas

Meeting others for work

You can gather in a group larger than six people or two households indoors or in a group larger than 30 people outdoors where it is necessary for your work.

When working, you should remain 2 metres from anyone you do not live with, or at least 1m with additional mitigations.

Areas where Surge Testing is currently being completed

Locations using surge testing

Surge testing is currently being carried out in specific and targeted locations within the following local authority areas. Testing for variants may also be happening within specific settings in other areas. If you need to take part, you will be informed by your local council. **TARGETED areas** within the following councils

London

- Brent Council,
- Ealing Council,
- Harrow Council,
- Hillingdon Council,
- Lambeth Council
- Royal Borough of Kingston upon Thames

North

- Cumbria County Council

South East

- Bracknell Forest Council
- Reading Borough Council
- Slough Borough Council
- Surrey County Council
- Wokingham Borough Council

West Midlands

- Staffordshire County Council

Yorkshire and the Humber

- City of Bradford Metropolitan District Council
- Calderdale Council

CHECK your local authority websites for **EXACT POSTCODES** where Surge Testing is taking place

Hygiene - Make sure YOU & ALL site visitors use the provided sanitiser when entering offices

An observation has been that people are **NOT** always using hand sanitiser when they enter offices. Please help protect everybody by sanitising correctly & ensuring **YOUR** Teams & Visitors fully follow our hygiene protocol

You **Must** wash hands or use hand sanitiser:

- When entering any office
- When entering communal areas e.g. Kitchens
- After using toilet

Check levels of sanitiser use – If your dispensers are FULL – no one is using them. = Remind your teams

ENSURE ALL YOUR teams also have sufficient hand sanitiser in their Vans & Sites

ENSURE REGULAR CLEANING & DISINFECTING OF OFFICE AREAS CONTINUES

Now is NOT the time to relax re Office controls - We need to continue to protect all.

One of the most dangerous aspects of this disease is that people without any symptoms can infect many others without realizing it.

Regular cleaning plays a vital role in limiting the transmission of COVID-19.

As a minimum

- Clean and disinfect regularly touched objects and surfaces using your regular cleaning products to reduce the risk of passing the infection on to other people.
- All communal office surfaces to have a disinfectant wipe routine at least twice per day to include:
 1. All Door & Cupboard Handles
 2. Photocopier & other office equipment
 3. Toilet & Kitchen facilities & Equipment

Always maintain a safe distance from your colleagues – Take particular care in break down areas e.g. Kitchen areas. Where possible keep external teams out of the office environment

Behaviour Coming out of Lockdown

Even as restrictions are lifted, it is essential that everyone carries on with the good habits we have introduced that help reduce transmission:

Safe Behaviours include:

- Wash Hands frequently, for at least 20 seconds.
- Wear a face covering in enclosed environments.
- Maintain space with anyone outside your household or work bubbles.
- Meet with others outdoors where possible.
- Minimise the number of different people you meet and the duration of meetings, if possible.
- Let fresh air in.
- Download the NHS Test & Trace app.
- Get a test immediately if you have symptoms.
- Self-isolate if you have symptoms, have tested positive, or had contact with someone with COVID-19.

Nurtures Safe Distancing – Practice Social Distancing wherever possible

To ensure we are doing everything possible to reduce the risk of infection. Measures put in place by Nurture include;

- Maintain operative social distancing at all times, this may involve staggered start and finish times
- where it is not possible to remain 2 metres apart, staff should work side by side, or facing away from each other, rather than face to face if possible
- where face-to-face contact is essential, this should be kept to 15 minutes or less wherever possible
- Dual teams to remain in the same personnel throughout (cohorting)
- Stagger break times to ensure no interaction thus reducing risk.
- Cleaning down of multi-use machinery or vehicles before transferring to another user.
- Sanitising hands at regular intervals along with machinery and vehicles using wipes provided
- Regular washing of hands for at least 20 seconds.
- Using screens or barriers to separate people from each other

If social distancing guidelines cannot be met in full, consider whether that activity needs to continue, and if so, take all mitigating actions to reduce risk.

[Staying alert and safe \(social distancing\) - GOV UK.htm](#)

Symptoms of Covid 19 Virus

If you have any of the main symptoms of coronavirus (COVID-19), get a test as soon as possible. Stay at home until you get the result.

The Main symptoms of Coronavirus are:

- **a high temperature** – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- **a new, continuous cough** – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- **a loss or change to your sense of smell or taste** – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

Note: We have recently had a couple of cases reported to us from a couple of your colleagues who tested positive for Covid 19 & that initially **didn't have the classic Covid symptoms** and initially didn't realize they had the virus before the classic symptoms developed later

- Sore throat
- Severe Headache
- Fatigue

If any of your team members develop any symptom that could be linked to Coronavirus we need to ensure that self-isolate until tested.

We Need to take ACTION - asap after any symptoms shown - **Better Safe Than Sorry**

Remember around 30% of all people infected show NO symptoms whatsoever - It is important we follow Social Distancing – and fully follow Wash – Face – Space

Risk Assessments

Ensure that YOU only display the latest versions - Check your notice boards & update local risk assessments where necessary

Updated Nurture Covid 19 – Risk Assessment

Due to postponement of the final lock down release steps – Risk Assessments have been reviewed but with no further changes in our control measures

[RA-C25T Dangers of catching Coronavirus \(Covid 19\) UPDATED 21st June 2021.pdf](#)

Remember that the above Risk Assessment is available to all via the work mobile library.

Main Office Assessment

[Office risk assessment reviewed 21st June 2021.pdf](#)

Review YOUR regional office assessments: [K:\Office RA](#)

NEXT Reviews will take place before 19th July prior to next relaxation of measures in England release plan

Mental Health

ITS Good to Talk

Ensure you make time for all your teams - Some of which you may not see very often.

Make that Call & communicate often with all your teams

Mental health during the Coronavirus outbreak

Don't be afraid to ask for help and advice during these difficult times

Remind your team that we operate an Employee Assistance Programme called 'LifeWorks'.

Mental Welfare Support From Lifeworks app

The APP has lots of useful information about self-care, mental health and well-being and has Covid-19 toolkit for individuals too. If employees haven't yet registered, Busy Bees that operate the platform, are re-issuing the invitation to the app, so please encourage staff to download it on their phones, its free and could be helpful to many.

Helping people in horticulture
Perennial

Perennial are here for you, if they're struggling with a life-changing event or just need a little extra support. The professional and friendly team at Perennial can help families access the government support that can make a long-term difference to their lives, along with providing a safety net of financial help, where at least one parent or carer works or has recently worked in horticulture including landscaping.

Full information can be found on their website - [Support for Families | Perennial](#)

Perennial's helpline is operating as usual on 0800 093 8543 or visit Perennial.org.uk to fill out the [contact form](#). The confidential helpline is currently open Monday and Wednesday, 9.30am – 5pm and Tuesday, Thursday and Friday, 9am – 5pm
